

## OPEN LETTER

Dear.....

Hospital 199 – Ministry of Public Security would like to send the best wishes for health, success and sincere thanks to our Valued Clients,

Hospital 199 was founded in 1999 in Da Nang City for the purpose of providing comprehensive healthcare for Public Security officers, soldiers and people. The hospital has been equipped with a team of enthusiastic doctors, and nurses that have highly vocational qualifications, modern equipment and advanced technology. Providing dedicated, considerate, accurate and attentive service are the top criteria that we bring to our patients and customers. The hospital's motto is "Good expertise - good service - high responsibility".

In order to meet the health care needs as much as possible, we have constantly enhanced our services quality as well as developed preferential policies to provide the most favorable conditions for customers to easily access services.

Whenever you need any information about medical examination, please feel free to contact:

- Facebook: <http://facebook.com/benhvien199>

- Zalo: Bệnh viện 199

We look forward to receiving the cooperation of your company

Best Regards,

*Director*

*Colonel Dr. Quách Hữu Trung*

## HOSPITAL LOGO

### Idea of the symbol

With a new and modern style, the logo is minimized by painting strokes to create highlight. The first highlight is the heart symbol - the center of all emotions, that representing eternal love. The smooth strokes that make up the heart symbol are the subtly stylized “199” image.

The second highlight is the human symbol combined with the simplest of brushstrokes, but still to helps the viewer to recognize. Because "People" is the factor that the hospital is always our top priority, there are only "People" that can build; are the most sustainable development, "People" are both a resource and a driving force for the development of the 199 Hospital. The combination of heart and human gives the meaning of the love of all hospital staffs that give to their patients, to their clients and to their own colleagues, to their partners. There is still an indispensable "Cross" symbol – Global Health Symbol. The combined above symbols are towards the message "Health of People is the mission of the Hospital" . That is shown even more evident through the hospital's slogan: Medical ethics, Life Magic. Medical ethics is the core of an true doctors, the foundation of the hospital's development, and is also the fulcrum of the people and society for the healthcare sector. The hospital always emphasizes the human factor in development, therefore, medical ethics is an integral part to Hospital 199. With mint blue is the main color, Hospital logo brings a cool feeling, ease the weariness and sorrow of people. Besides, the mint blue color also symbolizes purity, loyalty, trust, love and wisdom. It can be seen as the perfect color that symbolize medical ethics, the

compassion of doctors towards customers, for people, representing the core values of Hospital 199!

## **VISION**

To be a leading Hospital in the whole Central and Highlands Region in medical examination, treatment and primary health care for the Public Security officers, soliders and People in the Central and Highlands Region.
